

OVERVIEW

King Systems, LLC is a Colorado-based audio/video and low-voltage systems integrator with 24 years of proven performance (founded 2002) delivering mission-critical solutions to federal, state, and institutional clients. An **SBA 8(a) Business Development Program graduate (2023)**, the firm brings the compliance discipline, federal contracting infrastructure, and past performance built across nine years in the program. Headquartered in Arvada with a 50-person team and nationwide project delivery, King Systems designs, installs, services, and supports enterprise-grade AV, network, access control, and surveillance systems for environments where uptime, security, and accountability are non-negotiable.
